

### Passion for innovation

As a company of the internationally active TASI Group, innomatec stands for innovation, machines and technology. We develop and manufacture individual, intelligent solutions in the field of function and leak testing for renowned customers in the automotive, medical technology, household appliance and heating/sanitary industries, among others. Your electric toothbrush, brake line, dishwasher or heating pump, for example, was tested with our equipment.

## Mechatronics technician / mechanic / electronics technician (m/f/d) for measuring device

Full-time - Immediately - permanent contract - in Idstein/Taunus (Frankfurt area/ Germany)

### What you can expect with us:

- Challenging, varied tasks with your own creative freedom
- Job Security
- Extensive on-the-job training and individual continuing education with your own continuing education budget
- Working hours that suit you (flexitime model)
- Attractive social benefits, including company pension scheme, capital-forming benefits, free beverages

### Your tasks:

- No standard is standard with us - you therefore assemble individual leak test devices for the special customer requirements according to plan specifications.
- For this purpose, you will install pneumatic components as well as sensors for pressure, differential pressure and flow rate
- You will configure and test interfaces such as "Profinet".
- You independently check the function and quality of each completed measuring device, calibrate the measuring technology and prepare the documentation and test certificates

### That's why you:

- You have successfully completed an apprenticeship in the field of mechatronics, mechanics or electronics.
- What counts for us is your motivation and willingness to learn, which is why we are also happy to give career starters a chance.
- Not a must but "nice to have": Your experience in handling measuring equipment, pneumatics and/or hardware/software
- You enjoy "tinkering", always paying attention to the highest quality and customer satisfaction

**We have made you curious?** Take on an important role with us and send us your complete application incl. salary expectations and earliest possible starting date. Please submit your CV and letter of motivation in German language.
