

Passion for innovation

As a company of the internationally active TASI Group, innomatec stands for innovation, machines and technology. We develop and manufacture individual, intelligent solutions in the field of function and leak testing for renowned customers in the automotive, medical technology, household appliance and heating/sanitary industries, among others. Your electric toothbrush, brake line, dishwasher or heating pump, for example, was tested with our equipment.

IT System Administrator (m/f/d)

Full-time - Immediately - permanent contract - in Idstein/Taunus (Frankfurt area/ Germany)

This is what you can expect from us:

- Jobsecurity and challenging, varied tasks with your own creative scope
- Extensive on-the-job training and individual career planning with your own continuing education budget
- Flexible working hours to suit you (flexitime model) and the option of working from home
- Attractive social benefits, including company pension scheme, capital-forming benefits, free beverages

Your tasks:

- Support of the EDP and telecommunication systems with 1st and 2nd level support
- Support for the implementation of the ERP system and participation in the implementation of a ticket system
- Installation, maintenance and troubleshooting of the Active-Directory, MS operating systems of the servers and clients, mailing server (Exchange) and SQL server, System backup and recovery (backup)
- Supplier & order management for IT equipment, administration of telecommunication and mobile phone contracts
- Implementation of digitalization projects and their technical support, e.g. online training portals, Webinars etc.
- Support for firewall, Exchange Server or Office 365 in the future

That's why you:

- Completed technical training as an IT systems electronics technician, IT specialist, IT systems clerk or a comparable qualification with initial professional experience in the IT and/or ERP area as a system administrator
- Profound knowledge and confident handling of MS-operating systems and MS-Active Directory as well as technical understanding and experience with PC hardware and peripherals
- Experience in the deployment of client operating systems as well as in working with ticket systems
- You have a hands-on mentality and work independently with a strong service and customer orientation
- You are a creative and communicative problem solver with a quick grasp and high flexibility
- You have a high quality standard for your own work and act in a cost-conscious and results-oriented manner, convincing with your economic thinking and entrepreneurial actions
- You have a very good command of German and English, both written and spoken

We have made you curious? Take on an important role with us and send us your complete application incl. salary expectations and earliest possible starting date. Please submit your CV and letter of motivation in German language.
