SPS Programmer (m/f/d)

Full-time – permanent contract – immediate start of work - in Idstein/Taunus, Germany

What you can expect from us:

- Demanding, varied tasks with your own creative scope
- Extensive induction and individual career planning with your own training budget
- Attractive social benefits, including company pension plans and capital-forming schemes
- Modern workplace and flexible working hours (flexitime model)

Your duties:

- Our special plants are brought to life by you – you know exactly how the plants should function and program the appropriate SPS control after presentation of the electrical documentation
- During the visualization and commissioning you see the direct result of your work, so the recognition of your performance and the confirmation is never neglected
- When commissioning the equipment at home and abroad (occasionally 2 -3 days), you present your finished solutions
- By way of variety, you prove your skills by training our customers

That's why you did it:

- technician degree or technical studies will give you the necessary basics
- Have you already gained practical experience? Excellent, with us you will find your new challenge!
- You are familiar with S7 programming and have already created associated documentatio
- Ideally, you have knowledge of: WinCC flex or Tia and CoDeSys (IEC61131), and if you speak English you are our perfect candidate!

We made you curious? Take on an important role with us and send us your complete application. incl. salary expectations and earliest possible starting date by e-mail to bewerbung@innomatec.de
